

Sami Ben Abbés

Full-stack web developer.

 Tournai, Belgium

 Belgian

 26 years old

 Driving license B (manual) and owning a car

About.

After a degree in engineering during which I accumulated a significant scientific background and discovered the world of programming, I wanted to move forward to web development and make it my job.

As a perfectionist, eternal curious and passionate about science and technology, I am constantly learning and looking for new challenges.

I try at my scale to make the internet better.
